This is vehicle operation work in transporting passengers of a public transit system. Employees in this class normally operate vehicles from 30' to 60' long, electric, diesel, hybrid or alternate fuel passenger buses over prescribed routes within the metropolitan area. Bus operators are responsible for the safety of their passengers and the vehicle operated as well as for completing the assigned route according to the prescribed time schedule. Some Bus Operators may also be called to help when there are special community events and to transport citizens to and from hurricane evacuation centers when storms are on track to hit our County. Work requires the use of defensive driving skills and the courteous application of standard operating procedures, rules, and regulations of the DTPW. Supervision is received from Bus Traffic Controllers, Dispatchers and field operations supervisors who observe and evaluates driving practices, investigates traffic accidents, public complaints and related matters pertaining to passenger service and operator efficiency.
